Experience

Regional Safety Manager LeChase Construction

2011 to 2018

Responsibilities: Manage and implement a comprehensive employee health & safety program, return to work program, injury management, and disciplinary program. Support management and all employees with in house training and shared knowledge, in an effort to lower experienced mod rate, and the number of incidents for both workers compensation and general liability. Execute regular site inspections, and document safety inspections based on observations, best-known practices, and share appropriately with the applicable subcontractors. Assure all imminent danger situations are closed and properly safe guarded to eliminate any potential hazards.

Project Safety Manager McCarthy Building Companies

2007 to 2011

Responsibilities: Oversee and manage the safety of all subcontractor trades personnel throughout the building and construction of the Physical Science Building (PSB) for Cornell University, to ensure both OSHA, and McCarthy Building Companies safety requirements were implemented and being followed per the contractual agreement. Manage the return to work program for all subcontractors by assisting and accompanying subcontractor injured employees, whose injuries did not require care beyond First Aid treatment. PSB was a 200,000 square foot facility, with a budget of 112 million dollars.

OCIP Safety Manager Cornell University

2004 to 2007

Responsibilities: The owner controlled insurance program (OCIP) consisted of three separate new buildings being constructed for a combined total of 220 million dollars. The responsibilities included all aspects of risk management. Various tools and procedures were implemented to hold the Construction Managers, General Contractors, and Subcontractors accountable for safety.

Project Safety Manager Welliver McGuire

2000 to 2004

Responsibilities: Ensured that all employees including Subcontractors were following the Welliver McGuire safety policy, and the OSHA standards throughout the construction of the North Campus Residential Initiative and the West Campus Residential Initiative.
