

WORK EXPERIENCES

Lead Carpenter

Roba Family Farms - April 2018 - Present

(Mon - Fri. 7:30 am - 5:00pm)

230 Decker Road, Dalton, PA 18414

As the Lead carpenter on the farm, I execute a variety of scheduled projects in a timely manner which includes several small ticket structures, the construction and deconstruction of a refurbished carousel, set up large tents. I also assemble pole barns, install drainage lines throughout the property, and install irrigation lines in the fields. As lead carpenter my daily tasks may require heavy lifting, heavy labor, manual dexterity, measuring, organizing of building materials, reading and interpreting drawings, safety, and building site supervision.

Fusion Technician

HD Supply Fusible Piping- May 2013 - September 2017

(Mon – Fri. 7:00am – 5:00pm)

183 Corporate Drive, Binghamton, NY 13904

As a Fusion Technician, my position mostly requires the operation of equipment that fuses various sizes of piping; which in some cases specifies for certain qualifying certification within my region**. I am also responsible for tasks such as; Fusible Pipe training at customer's request, communication with customers to assess their needs, identifying all installation and repair needs, determining appropriate fusion equipment and to then deliver to the job site, as well as operating said machinery and forklifts. I provide and install custom piping systems and repairs, electro fuses and structure welds. As part of the final stage of a Fusion Technician, I am responsible for determining if the final product meets quality control standards, and I also inspect and maintain fusion equipment. One requirement for the position that I hold is 24 hour on call emergency service to anywhere in my specified region**.

Maryland, Pennsylvania, New York, New Jersey, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, Maine

Owner/Carpenter

Drumm Construction – June 2011- April 2018

(Mon. - Sun. 7:00am - 7:00pm)

214 Union Street, New Milford, PA 18834

As owner of Drumm Construction, I am solely responsible for day to day operations of the business including, meeting and consulting with potential clients, the estimating and planning of upcoming projects, and completing the jobs with the quality in which all clients deserve. I am also responsible for promoting our business in the upkeep on all social interactions to previous, current, possible future clients, and vendors. I also respond to all email inquiries to my business, and respond at a rapid rate to create great and trusting relationships with all of our clients. The main job requirements that I complete are, forming concrete footers and foundation, repairing damaged concrete foundations, concrete sidewalks and driveways, all stages of framing, exterior and interior finishes, and have basic knowledge of electrical and plumbing. As the owner I set forth goals for myself and this business to maintain a quality finished product, and advancing my carpentry skills.

WORK EXPERIENCES CONTINUED

Carpenter

Scott Lonzinski Construction, Inc - October 2005 to June 2011
(Mon. - Fri. 7:00am - 4:00pm)
659 Cudo Road Montrose, PA 18801

As a Carpenter for Scott Lonzinski Construction Incorporated, I was responsible for producing all stages of construction as appointed by the company. Having the ability to read architectural blueprints was necessary in order to execute the work contracted efficiently and correctly. Projects done by Scott Lonzinski Construction Inc. included but not limited to; residential homes, commercial buildings, concrete sidewalks and driveways, repairing concrete foundations, covered porches and decks, and working with Insulated Concrete Form Foundations are all projects that I was involved with and completed successfully. When the job supervisor was unavailable, or when two separate crews were assigned to different job sites, I was put in charge of managing the fellow employees as well as successfully completing goals set for the day. When managing, I was required to estimate and order the amount of material needed for specific jobs, and to answer any questions by the clients. To ensure safety and productivity among fellow employees, I organized and cleaned the active job sites on a regular basis.

ADDITIONAL INFORMATION

I, Chad Drumm, have superior skills in fast paced environments, work well under pressure, and have great client/customer service as I am assertive yet helpful and professional. I work efficiently and have great time management by being well organized; I am able to multi-task without missing any detail, small or large. I enjoy daily challenges and obstacles, and due to my quick learning abilities I am able to overcome them resourcefully. I also have great carpenter skills, as I am familiar with all aspects of building stages from footers and foundations, to finishing touches. My goal orientation, work ethic, and pride in what I accomplish have gotten me far on a construction career path. I am a reliable, eager to learn individual that would enjoy my time with your company and become a great part of your staff. I am hard working and looking to become part of a great team.
